# ConfirmDelivery PDF Toolkit

Increase Your Efficiency and Decrease Your Frustration!

The patent-pending ConfirmDelivery PDF Toolkit is unique software designed specifically to collate and merge documents. We offer the tools for you to manage information -- in the way want and in the order you choose.

Merge

If you already take advantage of ConfirmDelivery's Certified Mail program, adding the PDF Tools will simplify the process and enhance your efficiency.

Ever wish you could add your correspondence information to the bottom of the address sheet? Now you can! And it is easy...

The merge function within the Toolkit will allow you to embed your correspondence on the bottom two-thirds of the every address sheet. Less wasted paper, greater efficiency, expedited time management.

Collate

Simplify your mailing process and eliminate time-consuming recipient matching with the collating function of the Toolkit. No more fear of "Did I get the right address label with the right document on every mail piece?" The collate function allows the ConfirmDelivery labels to be interwoven with your existing documents. Already have personalized documents that are in the same order as your ConfirmDelivery labels? Just collate the two sets of documents into one PDF file. Simple process, no more nightmares!

Simplify the Procedures	Enhance Tracking	Expedite Proof of Delivery

Our quality solutions are economical, flexible, efficient and created specifically for our clients and partners. We value the trust of our clients and take pride in our reputation of providing prompt, quality products and services. ConfirmDelivery provides the solutions you dream about.
